To Whom It May Concern:

We have been using ERT for all our customers lamp and ballast recycle needs since its' inception. We get great service, great pricing and like doing business locally. ERT gets us the recycle barrels that our customers use for the recycle lamps. When they are full, ERT picks them up and delivers empty ones to take their place. For larger retrofit jobs or re-lamp projects, ERT gets us the number of barrels we need and can pick up them up or if they are palletized, they can pick up the pallets. ERT has also worked with us on out of state recycle projects as well. We've never had a problem go unresolved and Mike works hard to keep our business and our trust.
